

EXPLICACION DEL MODELO

Conexión Natural

Escapar a la naturaleza y disfrutar de sus fascinantes vistas para recargar energía es una de las más placenteras formas de desconexión de la rutina y el estrés diarios.

Rafa García a menudo se aventura con su bici a bosques y montañas, lugar en el que se ha inspirado para su nueva creación, **Alpino**. Un sofá modular especialmente concebido para uso doméstico. Con este modelo el diseñador traslada la sensación de bienestar que experimenta cuando se encuentra al aire libre y crea un reconfortante refugio para la intimidad del hogar.

Los suaves picos de las almohadas y la base de los respaldos se solapan entre sí para simular el perfil montañoso de las cordilleras alpinas.

La altura del respaldo es uno de los elementos a destacar, pues recoge de manera natural la cabeza de quienes se dejen abrazar por sus mullidas almohadas. Su confort es tal, que resulta el compañero perfecto para no perder la concentración durante un maratónico maratón de series. Y los no teledictos podrán dormir tras un largo paseo campestre o despararrmarse a leer relajadamente el periódico.

Un diseño de apariencia serena y sencilla, no carente de complejidad constructiva por la peculiar forma de los brazos y la delgadez y suavidad de los respaldos.

Rafa ofrece múltiples soluciones para personalizar las composiciones en respuesta a las necesidades que marcan los diferentes espacios. Un brazo solapa que imita una manta dejada caer sobre sí mismo y un brazo recto. Cuatro tipos de puf con diferentes funciones: integrado dentro de la composición como un asiento sin respaldo, como ángulo para crear rincones, como terminal o, simplemente, como puf independiente. La modulación se completa con una chaise y un ángulo recto.

Alpino ofrece además otras opciones de personalización al vestir sus formas con todas las colecciones textiles disponibles en nuestro catálogo, y sus esbeltas patas de roble están disponibles en todos los colores de nuestra carta de tintes.

DESCRIPTION

Natural connection.

Getting back to nature to recharge and relax is one of the most pleasurable ways to disconnect from everyday routine and stress.

Rafa García is a keen mountain biker and found inspiration for his latest piece, **Alpino**, when he was out and about. The designer has infused the modular sofa with the sense of well-being that he experiences when outdoors, creating a cosy refuge at home.

The soft peaks of the base and back cushions overlap, just like a mountain range. The backrest nestles your head in a comfortable position; ideal for binge-watching, reading or dozing off after a walk in the countryside.

A serene and simple design, not without constructive complexity due to its unique arm shapes and the soft yet thin backrests.

Rafa offers multiple solutions to personalise the compositions. An arm with a flap, reminiscent of a draped blanket. Four different types of pouf are available that can be integrated inside the composition as a seat without backrest, create corners, be used as a terminal element or simply as an independent ottoman. A range of modules can be slotted together including a chaise and angle element.

Sancal's extensive textile collection provides the **Alpino** with another layer of personalization and its slender oak feet can be lacquered in a wealth of colours.

DESCRIPTION

Connexion naturelle

Profiter des fascinantes vues qu'offre la nature lors d'une escapade à la campagne, pour se recharger en énergie est l'une des plus agréables formes de déconnexion de la routine et du stress quotidiens.

Rafa García s'aventure souvent avec son vélo dans des forêts ou à la campagne, lieux où il a trouvé l'inspiration pour sa nouvelle création, **Alpino**. Un canapé modulable spécialement conçu à usage domestique. Avec ce modèle le designer transmet la sensation de bien-être qu'il ressent lorsqu'il se retrouve à l'air libre, ces sentiments de liberté et de quiétude qui l'envahissent, une sorte de refuge pour l'intimité du foyer.

Les doux pics des coussins et la base des dossiers se chevauchent afin de simuler le profil des chaînes de montagnes alpines.

La hauteur du dossier est l'un des éléments à souligner, puisqu'il soutient de manière naturelle la tête de quiconque se laisse embrasser par ses coussins moelleux. Le confort est tel que c'est le compagnon idéal afin de ne pas perdre la concentration lors d'un marathon dévoreur de séries télé. Et pour ceux qui ne sont trop addicts à la télévision, ils pourront somnoler après de longues ballades champêtres ou lire tranquillement leur journal.

Un design d'apparence sereine et simple, qui n'a pas besoin de complexité constructive pour la forme de bras si particulière, et la mince et douce forme des dossiers.

Rafa offre de multiples solutions pour personnaliser les compositions en réponse aux nécessités qui marquent les différents espaces. Un bras à rabat qui imite une couverture laissée tombée sur lui-même et un bras droit. 4 types de poufs avec différentes fonctions : intégré dans la composition comme une assise sans dossier, pour créer des ensembles comme angle droit, comme terminal ou simplement comme pouf indépendant. La modularité est complétée par une chaise longue et un angle droit.

Alpino offre en plus d'autres options de personnalisation avec toutes les collections textiles disponibles. De plus le piètement très fin en chêne est disponible dans toutes les teintures.
