max dia 100 cm or 80x80 cm

\*other top on request:  
max 80x80 cm

\*other top on request:  
max dia 130 cm

## MAINTENANCE AND CARE

### HPL

You can use your HPL side tables inside as well as outside.

Dirt does not easily stick to the material, which makes your side tables easy to maintain.

Use a damp cloth and water to clean spilled solutions. The quicker you remove them, the easier.

Use a solution of water and mild soap to clean more stubborn stains.

### UNTREATED TEAK

Untreated teak is not stainproof. Should you wish to fully protect your teak furniture against stains, you can apply a sealer. This is an invisible layer which will allow your furniture to go to a beautiful silvery grey while preventing any liquids from penetrating the wood.

You can also choose to oil your furniture. However, this will alter the colour of the teak.

### STEEL

Steel is used in our indoor collection as well as our outdoor collection, mainly for the legs and frames of our furniture pieces.

For the outdoor pieces, the steel is always galvanized and powder coated to make sure it is protected from all-weather influences.

Clean your armour with a moist towel and some natural soap!

## VARIANTS
